Master Gardener News:

Our Spring Class Series continues with the next class on Tuesday, March 13th, 2018. **Native Plant Pocket Garden** – A native pocket garden is a small garden composed of only native plants from our region. It contains several species and is aimed at helping pollinators and other native critters. Plants are chosen that can provide blooms throughout the growing season. This first garden can also serve as a seed source if a person wishes to expand the area in their landscape dedicated to natives. Presented by Tom Dickhudt, CCMG. All classes are held at the Senior Center in North Branch, all classes are from 6-7:30 p.m. and all classes are FREE! If you have any questions, call Jerry Vitalis at 257-4496.
